**IQX CAPEX for SAP Fiori** is a fully automated Capital Expenditure management solution that is both quick to deploy and flexible to adapt to your unique requirements.

## FUNCTIONS

- **Idea collaboration** - capture investment initiatives early and gain expert opinion using digital forms.
- Project **Evaluation** - standardise the classification and evaluation of initiatives.
- Budget **Management** - systematise your spreadsheets and monitor your capital and cashflow budgets.
- **Requests for Appropriation** - easy to use digital forms for capital acquisitions, disposals, and transfers.
- **Review and Approval** - ensures all requests are approved in accordance with your chart of authority.
- **Execution** - automatically creates projects, purchase orders and ultimately assets in SAP.
- **Monitoring** - reconcile budget and actual costs during development and actual benefits received.

**01** Evaluate
**02** Budget
**03** Appropriate
**04** Transfer
**05** Dispose

## FEATURES

- Based on **SAP Fiori** for a familiar and consistent end user experience.
- **Highly configurable** data model to meet your reporting needs.
- Bi-directional **Excel integration** to load your budgets, business cases and perform flexible analytics.
- Easy to maintain **automated workflow** to ensure that requests are routed appropriately for approval.
- **Mobile approvals** to expedite time-critical opportunities.
- Integrated with SAP **document management** system to ensure that attachments are accessible and secure.
- Deep bi-directional **SAP integration**.
- Fine-grained SAP access controls and encryption mean that sensitive financial data is highly **secure**.

## BENEFITS

- **Accelerate** CAPEX process turnaround time, efficiency and control.
- Make better, more informed and more **confident CAPEX decisions** based on standardised data and supporting documents.
- Ensure capital expenditure remains within your capital and cashflow **budgets**.
- Ensure **compliance** with CAPEX policies with automated workflow and detailed audit trails to demonstrate probity.
- Enable **flexible analysis** based on a centralised, integrated, single source of truth.
