

IQX AppBuilder for SAP Fiori (FAB) enables your current SAP team to rapidly design and build Fiori apps that fit your unique business needs.

FAB apps engage and delight users with screens which suit the way they work, wherever they work. FAB apps have built-in workflow to accelerate and control your critical business processes.

The FAB workbench supports an agile implementation approach to ensure your end users get what they really need more quickly, reliably and cost effectively. And importantly, the low-code structure of the apps means that they can be efficiently supported and maintained.

IQX APPBUILDER FOR SAP FIORI LETS YOU

- Configure low-code dynamic Web and Mobile apps
- Integrate easily with Excel for bulk uploads
- Accommodate your unique data fields
- Enable multi-step processes prior to updating SAP
- Configure workflow without specialist skills
- Approve all tasks via a native mobile app
- Apply SAP business rule validations and lookups
- Consolidate all user requests in a single list
- Monitor data and processes with rich analytics
- Enforce compliance with authorisations and policies

The screenshot displays the 'Purchase Requisition Create' application. The main form is titled '4. Purchase Details' and includes a 'Brief description of job' field. Below this is a 'Services' section with a 'Drop Services Purchase Requisition Excel File Here' area. A table lists the services with columns for Service No., Item Description (Short Text), Qty, UOM, Unit Price (excl tax), Total Price, and Tax Free Item?.

Service No.	Item Description (Short Text)	Qty	UOM	Unit Price (excl tax)	Total Price	Tax Free Item?
	Consulting	24	H	100	2400.00	

The Grand Total (EUR) is 2400.00. A 'Step 5' button is visible at the bottom left of the form, and a 'Review' button is at the bottom right.

The dashboard below the form features several app tiles:

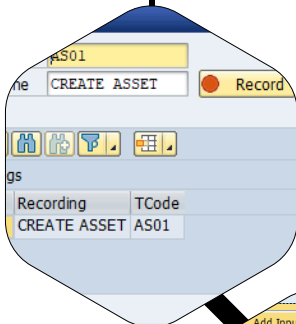

- Upload Assets (Materials Management)
- Create a Notification (Materials Management)
- Update Employee Wild Card (Finance)
- Non-Purchase Order Payment (Finance)
- Create Purchase Requisition (Materials Management)
- RBL App (Materials Management)
- Price Change Request (Sales & Distribution)
- Sales Order (Sales & Distribution)
- Maternity Leave Change (Finance)
- Accrual Journal (Finance)
- Get Up-To-Date Stock Balances (Materials Management)

Build custom SAP Fiori apps 75% faster on all versions of SAP with IQX AppBuilder

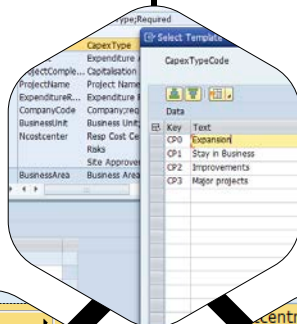

RECORD

Record any BDC and auto-generate a Form based App or spreadsheet enabled bulk data load.
