

HOW EFFECTIVE CAPITAL EXPENDITURE DELIVERS ROI

Capital Expenditure is one of the most crucial responsibilities of management to ensure the long-term success of any organization.

THE REAL IMPACT OF EFFECTIVE CAPEX

Effective CAPEX management helps maximize your return from investment of human and financial capital. Your strategy depends on it. Your operations rely on it. Regulators demand it.

Achieving world-class capex management can drive a 15 to 25 percent reduction in overall capital spend coupled with an improvement of 2 to 4 percent in ROIC. Some firms have even achieved a staggering 50 percent reduction in year-on-year capex portfolio spending.

According to McKinsey

1

CAPITAL ALLOCATION

Deliver 10% to 20% capital cost savings with best in class capital allocation.

2

SPEED AND EFFICIENCY

Accelerate your CAPEX approval process from weeks to hours.

3

STRATEGIC ALIGNMENT

Achieve your corporate goals by aligning investment proposals to your strategic initiatives at every step.

4

BETTER DECISION MAKING

Apply standardized scoring and ranking techniques to make more confident and informed decisions.

5

PROJECT PERFORMANCE MONITORING

Accurate, real time data analytics to tighten fiscal management and respond quickly.

6

RETURN ON INVESTMENT

2% to 4% increased return on investment.

- Real time transparency enables early intervention

WHAT CLIENTS ARE SAYING

Albany International

"We spent about 200 hours each year chasing managers for CERs, which caused a lot of heartburn. We expect this will now essentially vanish with IQX CAPEX. Across the board, we expect to save 800 hours of work annually," concluded Anand Padmanabhan, Manager of Business Systems for Supply Chain and Finance.

ABOUT IQX

IQX Business Solutions delivers the leading integrated Capital Expenditure solution for SAP. We connect end-to-end Capital Expenditure processes to enable executives to make more timely and confident business decisions based on a single data source.

OUR CORE BUSINESS FOCUS

IQX CAPEX
A complete CAPEX solution
from idea to benefit
Realization.

Digital transformation of the CAPEX process allows for more insightful evaluation and selection of projects, better control of cash and resource commitments and greater agility to respond to the unexpected.

IQX CAPEX will both accelerate and control the process through intuitive web forms, workflow automation, supporting document management and rich analytics. It runs inside SAP and uses standard SAP data objects integration. It allows executives to make effective, timely, and more confident investment decisions with a high degree of demonstrable probity and policy compliance.

ONELIST
Consolidated & Mobilized
approvals.

Having immediate notification of assigned approval tasks together with contextual business data and supporting documentation enables more effective and timely decision making resulting in overall efficiency improvements.

By consolidating and mobilizing task approvals across multiple systems in a consistent and mobile-enabled user experience, you can save time and put the focus where it is needed most – on what you do best: running and growing your business.

**IQX APPBUILDER
FOR SAP FIORI**

IQX CAPEX consists of a suite of Fiori Apps that address Wishlists; Budgets; CAPEX Requests; Projects; Forecasts and Approvals.

IQX CAPEX Apps are delivered as “ready-to-run” and are based on global best practices.

Leveraging our SAP certified enabling software and expert team, the rapid implementation project transforms these baselines into highly tailored apps to meet the unique and ever changing requirements of your business. They leverage existing SAP infrastructure and can be supported by your existing SAP Team.

HOW IQX CAPEX DELIVERS ROI

Senior executives know that managing capital investments wisely means better cash flow, faster growth, and competitive advantage. Here we look at four key areas IQX CAPEX delivers ROI.

Our Clients

IQX Business Solutions has a large portfolio of clients, here is a small sample to demonstrate the diversity of industries we serve, digitally transforming their CAPEX processes.

SOLENIS TO SHORTEN CUSTOMER ORDER FULFILLMENT FROM WEEKS TO DAYS WITH IQX CAPEX

"At first, we tried to build the app on our own. But we do not have a huge development shop, so we turned to the IQX AppBuilder for SAP Fiori, which made it straightforward with low-code development. We only had to build the logic. We found IQX extremely helpful," said John Marquart, Director of Enterprise Technology and Architecture.
